# C2-23

With 1000KG load, it can still go forward, backward, make spin turn and partial turn as well as scanning code or bars on the carts.

Navigation Type	QR code navigation/SLAM navigation
Base dimensions	L1180*W860*H300 ( mm)
Run direction	Forward, backward and rotation
Load capacity	1000KG
Travel speed	0~72m/min(QR code navigation); 0~60m/min(SLAM navigation)
Lift height	50mm
Navigation accuracy	±5mm(QR code navigation); ±10(SLAM navigation)
Stopping accuracy	±5mm(QR code navigation); ±10(SLAM navigation)
Driving method	Differential drive
Battery charging method	Bumping into contact charging
Battery type	Lithium battery
Safety detecting range Safety circuit	≤3m(adjustable) safety laser scanner+anti-collision bumper
Case
