

C1-21

Tunnel AGV goes under the trolley and the pink hook would rise or fall automatically to hook or release the trolley. It is compact, flexible and can travel bi-directionally.

Navigation Type	Magnetic tape navigation
Base dimensions	L1550*W420*H290(mm)
Run direction	Forward, reverse ,0~90 degree turn
Load capacity	800KG
Travel speed	0~ 35m/min
Turning radius	800mm
Navigation accuracy	±10mm
Stopping accuracy	±10mm
Driving method	Differential drive
Battery charging method	Side charging /Underneath charging
Battery type	Lithium battery
Safety detecting range Safety circuit	≤3m(adjustable) safety laser scanner+anti-collision bumper
Case
